NEW YORK, April 3.—Within the last week or two the United States Really and Construction Company has received orders which aggregate between \$4,000,000 and \$5,000,000 in value. The demand for construction material from the West is particularly heavy.

A person in close touch with the affairs of the United States Steel Corporation says that the unfilled business on the hooks of the company are now the largest in the history of the copporation. The orders are regarded as substantial, as the amount of conditional business is comparatively small.
